“ *With four kids in our family who were subject to common childhood ills and accidents, we saw Dr. Fister regularly, both in his office and at our home where he would show up with his little black bag at all times of the day and night. He was an an uncommonly calm and reassuring presence and exemplified the highest standards of a family doctor. Condolences to the family for your loss, but be assured that many, many people have benefited from his care.*

“ Dear Nancy and the Entire Fister family,

I was so sorry to hear of the passing of your dad. Your dad was such a kind and caring doctor. Each time I went to the office, I would mention the lovely pictures of you that he had on display. He would always smile, he was so proud of you.

Your dad helped get me the best care when I was seriously ill in 1971. I will never forget him for that.

In talking with my sister recently about your dad's passing I reminded her that another memory I have of your dad is the day Kennedy was shot. My sister and I had come down with the mumps and your dad came out to the house and gave us each a shot that day. Your dad left, my uncle came in with the milk delivery and told us about the shooting. I'm sure my sons can tell you this story because I have told this story over and over again and your dad is always included in it!

Hold on to all those happy memories you have of your father. He was a really great man and respected by many.

My thoughts and prayers are with you and your family.

Sincerely,

Kathy McCloskey Windstein

“ *My grandparents moved to Maple Shade in the early 1950s and were patients of his for many, many years. They came to trust his expertise and admired the commitment he had for his patients. He was a very good doctor and more importantly, he was a good man.*

“ *My father owned the drug store in Maple Shade and as a boy I got to know Dr. Fister well. He gave me a ride in his TriPacer and as a result of that ride I learned to fly and made it my career flying every thing fro the tri pacer to corporate jet aircraft. I am retired and live in Maine. My condolences to the family. Arthur Brecker*
